PRESENTATION

Event Description:

Participants are invited to present their research or innovative ideas through a structured PowerPoint (PPT) presentation. The topics can range across various fields of technology, engineering, and science. Each presentation should demonstrate clarity, creativity, and thorough understanding of the chosen subject.

Team Specification:

1. The presentation can be delivered individually or by a team of up to 2 members.
2. Students from different institutes can be part of the same team.
3. Registration fee per participant: Rupees 50/- Click Here to Register

Presentation Guidelines:

Domains: AI / ML / Cloud / Microservices / FSD / Cybersecurity / IOT / Electronics / VLSI (only on Latest innovation/Methods/Discover)

1. Slide Count: Maximum of 10 slides, including the conclusion slide.

2. Time Limit: 5 to 8 minutes per presentation.

3. Slide Structure:

» Title Slide (Slide 1):

- Title of the paper/presentation.
- Names of participants and their affiliations (college names).
- Contact details (optional).

» Introduction (Slide 2):

- Brief introduction to the topic, objective, and scope of the study or idea.

» Problem Statement (Slide 3):

- Define the problem your work addresses or the innovation proposed.

» Literature Review/Background (Slide 4):

- Summary of existing work or research in the area (optional).

» Methodology/Approach (Slides 5-6):

- Detailed description of the methods, tools, or processes used.
- Include any relevant data, charts, or images.

» Results/Findings (Slides 7-8):

- Highlight key results, observations, or insights gathered from your work.
- Visuals like graphs or tables are recommended.

» Discussion (Slide 9):

- Analysis of results, potential applications, or implications of the findings.
- Strengths and limitations of the study or approach.

» Conclusion (Slide 10):

- Summarize the presentation and provide a clear conclusion.
- Mention possible future work, innovations, or improvements.
- Conclude with a final takeaway message. Presentation Delivery:

» Participants must ensure that their presentations are concise and within the time limit.
» Presenters must be clear, confident, and well-prepared to answer questions from the jury.

Judging Criteria:

- Clarity and Structure of the Presentation
- Relevance and Originality of the Topic
- Depth of Research/Analysis
- Visual Presentation and Slide Design
- Presentation Skills
- Adherence

Rules and Guidelines:

1. Each team must register online through Official Codeathon'26 Website or offline through the event coordinators.
2. Participants should submit their presentations in PDF or PPT format before the event.
3. No changes to the presentation will be allowed once submitted.
4. All team members must have a valid Codeathon ID and college ID. External participants should submit a Bonafide Certificate signed by their Principal/HOD.
5. Misbehavior or non-compliance with the event rules may lead to disqualification.
6. The organizing committee reserves the right to modify the rules at any time, with participants informed via email/WhatsApp.
7. The decision of the jury will be final and binding.
